Projects

Eiga | <https://github.com/AMESocker/eiga> | <https://eiga-reviews.herokuapp.com/> RESTful routes

- A Ghibli movie review site
- The site is a studio-specific (Ghibli) movie site to view and review individual movies. The site features user validation by signing in to view and review movies. Responsible for setting up the RESTful routes using express, and implementing Leaflet in a React environment.
- Tools/Languages: JavaScript, HTML, CSS, Bootstrap, Github, VS Code, Express.js, Node.js.

Investor Rest | <https://github.com/AMESocker/investorrest> | <https://investorrest.herokuapp.com/> RESTful Routes, Mongoose Models

- The site helps users to look for Airbnb investment properties based on location.
- Users can compare a property to the Airbnb stats of the area. It can also calculate the property's mortgage. Users can also save properties and make a favorites list. Responsible for setting up RESTful routes, Mongoose models, and implementing the Leaflet library in the React environment.
- Tools/Languages: JavaScript, HTML, React-Bootstrap, React, Node.js, Express.js, Mongoose, Heroku.

LivHealthy | <https://github.com/AMESocker/LivHealthy> | <https://tinyurl.com/yx9v8r3v> HTML Formatting and Debugging

- An app for searching for detailed recipes and exercises
- Searches recipes and exercises by various criteria.
- Tools/Languages: HTML, JavaScript, jQuery, CSS

ADDITIONAL EXPERIENCE

Albertsons 2020 - 2021

****Personal Notes to be deleted upon edit****

Naming format: Firstname Lastname_PositionTitle_Resume

Save as a PDF

- ☐ Each position listed has between 3-5 bullet points
- ☐ Each bullet point speaks to a specific skill
- ☐ Each bullet point contains a quantitative or qualitative result
- ☐ Each bullet point starts with a strong action verb
- ☐ Bullet points are listed in order of relevance to the types of position you seek
 - Do you meet desired/required qualifications?
 - How have you demonstrated the skills they are looking for?

- How have you added value to employers in the past? To convey this, focus on adding CONTEXT and OUTCOMES to each of your bullet points.

Brand Statement

What role and background?

Recently received a full stack web development certificate from UC Berkeley Extension.

Good skills.

Soft skills.

Goals.

How to help.

Work Experience

- Experience section:
 - Start every bullet with an action verb; don't use the same verb more than once.
 - Cite accomplishments, recognitions, and/or awards (do not list job duties).
 - Quantify work as much as possible, eg. "200 tickets closed per month".
 - Work is quantified to showcase accomplishments and not just listing job duties.

Explain what you did, why you did it, and what the end result was.

ignore the number of years of experience if meet at least 60% of the other requirements
